The business of real estate hinges on the concept of agency, where designated real estate professionals represent the needs of the buyer and/or the seller. This representation assists in sale of real property between a seller and a buyer. This course will walk you through those rights and responsibilities as a seller's agent, a buyer's agent, dual agent, subagent, and facilitator. You will also learn the proper disclosures required for each type of agency.

This is a hybrid class with the instructor being at Greater Lakes Associations and Zoom link will be sent out 24 hours prior to class. Cameras must remain on and student must remain visible, showing property or doing other business during class is not allowed per the DOCs requirements for CE.
